## Technical Profile

### Photosensitivity

Low; lightens with age and exposure to sunlight and oxygen.

### Grain

Straight, open, medium to coarse, with uneven texture.

### Janka Hardness

1290 lbf average.

### Specific Gravity

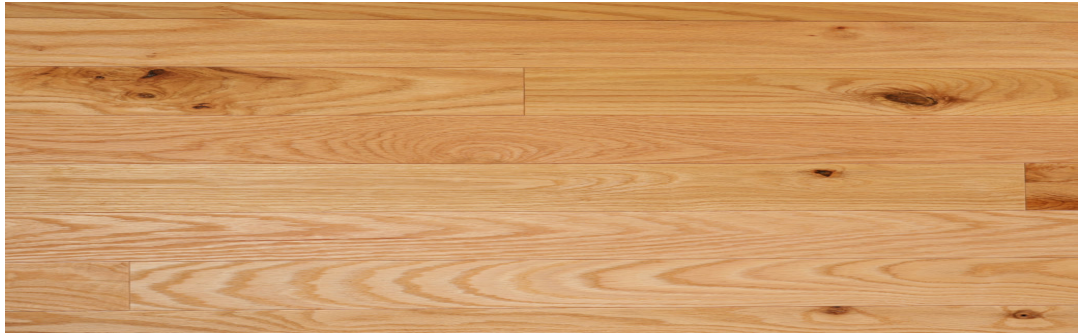

0.63 average at 12% MC.

### In-Use Stability

Average.

### Finish Notes

Sands well with standard grit progression and accepts stains and finishes very nicely.

American Collection · Luxury Wide Plank Collection

# Red Oak

## PREFINISHED NATURAL

Red Oak brings the familiar warmth of American oak, with heartwood ranging from light biscuit to medium brown and a subtle red-to-pink cast. The Natural prefinish keeps that expression clean and straightforward while letting the grain remain prominent.

Its ring-porous structure and open, medium-to-coarse grain create a surface with movement and texture, while the character grading keeps the floor organic and visually expressive.

### Distinctive Attributes

This character-grade floor welcomes broad heartwood and sapwood variation along with sound knots, open character, worm holes, checks, and streaking. Open knots and open character up to 1/2 in. are fillable, creating a naturally expressive look.
