Technical Profile

Photosensitivity

Low; slightly ambers with age and prolonged exposure to sunlight and oxygen.

Grain

Closed grain with moderate definition; somewhat rough-textured.

Janka Hardness

1820 lbf average.

Specific Gravity

0.72 average at 12% MC.

In-Use Stability

Below average.

Finish Notes

Sands well, often benefiting from higher final grits to minimize visible scratching; accepts stains and finishes very nicely.

American Collection · Luxury Wide Plank Collection

Hickory

PREFINISHED TOASTED ACORN

Hickory brings dramatic natural variation, with tan-to-reddish heartwood set against white-to-cream sapwood marked by fine brown lines. The Toasted Acorn prefinish deepens those natural contrasts into a richer, warmly grounded palette.

Its ring-porous structure and closed, moderately defined grain create a strong, characterful surface, while the character grading keeps the floor organic and visually expressive.

Distinctive Attributes

This character-grade floor welcomes broad heartwood and sapwood variation along with sound knots, open character, worm holes, checks, streaks, and bird pecks. Open knots and open character up to 1/2 in. are fillable, creating a naturally expressive look.

Flooring Specifications

Prefinish	Toasted Acorn
Sold	In full carton
Shipping Weight	4.16 lbs per sq. ft.
Edge	4-sided micro-beveled edge
Installation	Nail/staple down
Standard Length	Random from 1' - 8'
