Technical Profile

Photosensitivity

Low; lightens with age and exposure to sunlight and oxygen.

Grain

Straight, open, and medium to coarse in texture.

Janka Hardness

1360 lbf average.

Specific Gravity

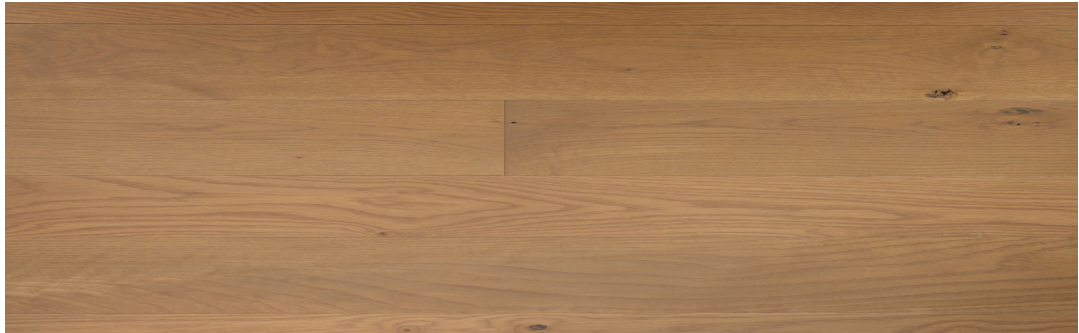

0.68 average at 12% MC.

In-Use Stability

Below average.

Finish Notes

Sands well and accepts stains and finishes nicely; tannic acid can react with some liquids and finishing systems.

American Collection · Luxury Wide Plank Collection

White Oak

PREFINISHED CARAMEL

White Oak offers the timeless character of American oak with a broad natural range, moving from light and medium brown to pale yellowish-brown and darker pale-brown tones, often with a subtle olive cast.

The Caramel prefinish brings that variation into a softer golden-brown direction, giving the floor a warmer, more mellow expression while keeping white oak's open grain and classic movement intact.

Distinctive Attributes

This floor welcomes broad heartwood and sapwood variation along with sound knots, open character, worm holes, checks, and streaking. Open knots and open character up to 1/2 in. are fillable, with heartwood and sapwood variation intentionally left unrestricted.
