Technical Profile

Photosensitivity

Low; slightly ambers with age and exposure to sunlight and oxygen.

Grain

Diffuse-porous; generally straight, sometimes wavy, with a fine, even texture.

Janka Hardness

1450 lbf average.

Specific Gravity

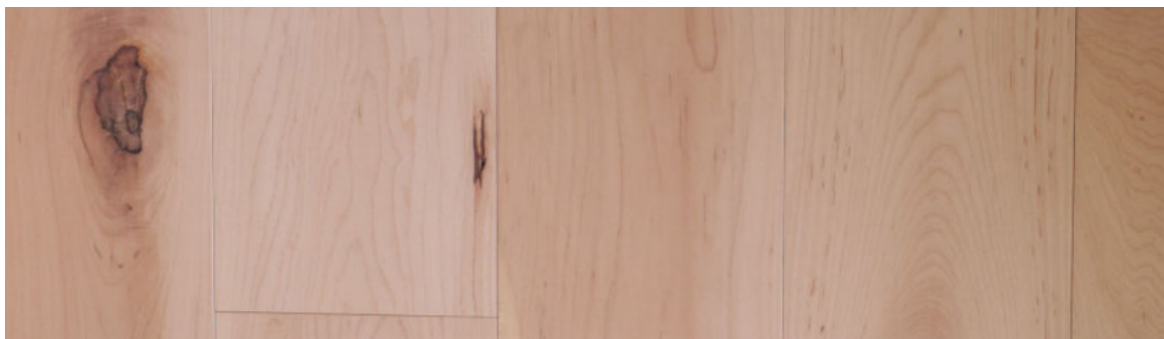

0.63 average at 12% MC.

In-Use Stability

Average.

Finish Notes

Dense and tight-grained, so sanding requires extra caution and a careful grit progression. Maple takes finishes nicely, though stain can appear uneven from board to board.

American Collection · Luxury Wide Plank Collection

Maple

Prefinished Frost

Maple Character offers a bright, refined hardwood look with natural movement and a crisp modern finish. Sapwood ranges from nearly white to an off-white cream tone, while darker reddish-brown to brown heartwood may appear throughout for contrast and depth. Its diffuse-porous structure and fine, even texture create a smoother visual field than open-grained species, making it a strong fit for interiors that want understated variation with a clean, tailored feel.

Distinctive Attributes

This character-grade floor welcomes distinct heartwood and sapwood variation along with sound knots. It may include open knots and open character up to 1/2 in. in diameter that are fillable, plus worm holes, checks, and streaks. Heartwood and sapwood variation is intentionally unrestricted.

Flooring Specifications

Sold	In full carton
Shipping Weight	3.66 lbs per sq. ft.
Edge	4-sided micro-beveled edge
Installation	Nail/staple down
Standard Length	Random from 1'-8'
Standard Widths	3 1/4", 4 1/4", 5 1/4"
