Technical Profile

Photosensitivity

Moderate to high; lightens with age and exposure to sunlight and oxygen.

Grain

Normally straight and open, though it can also be irregular, curly, or wavy.

Janka Hardness

1010 lbf average.

Specific Gravity

0.55 average at 12% MC.

In-Use Stability

Below average.

Finish Notes

Sands very easily; the softer surface can show sander marks more readily, but it accepts stains and finishes nicely.

American Collection · Luxury Wide Plank Collection

Walnut

PREFINISHED NATURAL

Walnut offers one of the most dramatic native hardwood palettes, moving from light grayish-brown to deep chocolate-brown and even purplish-black heartwood, with pale sapwood clearly set apart.

The Natural prefinish keeps that contrast visible, while walnut's semi-ring-porous grain adds a smooth, open flow with the occasional swirl, curl, burl, or knot that gives the floor its distinctive presence.

Distinctive Attributes

This floor highlights the striking contrast between dark heartwood and lighter sapwood, along with sound knots, open character, worm holes, checks, streaks, and pith. Open knots and open character up to 1/2 in. are fillable, while sapwood remains limited.

Flooring Specifications

Prefinish	Natural
Sold	In full carton
Shipping Weight	3.41 lbs per sq. ft.
Edge	4-sided micro-beveled edge
Installation	Nail/staple down
Standard Length	Random from 1' - 8'
