Technical Profile

Photosensitivity

Low-to-moderate; slightly ambers with age and sun exposure. Steamed beech darkens naturally.

Grain

Straight, fine, and uniform; growth rings are faint.

Janka Hardness

1300 lbf average.

Specific Gravity

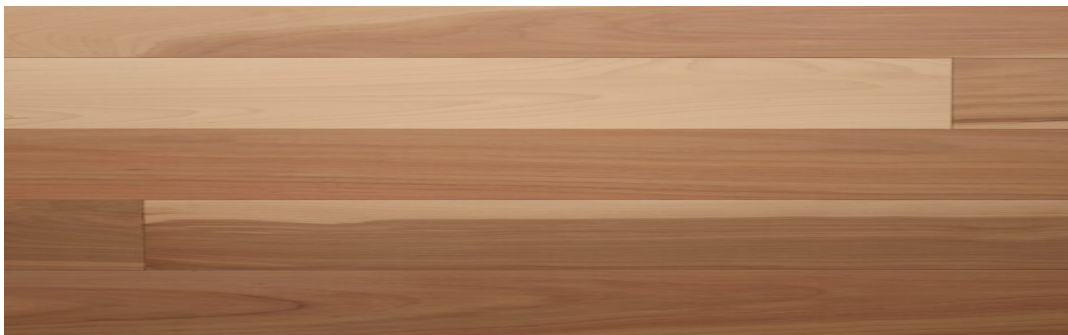

0.64 average at 12% MC.

In-Use Stability

Below average.

Finish Notes

Sands very well, often benefiting from higher grit progression and lighter drum pressure to minimize visible scratching.

American Collection · Luxury Wide Plank Collection

Beech

PREFINISHED DRIFT

Beech brings a refined, straight-grained appearance with a naturally light reddish-brown heartwood and pale sapwood that can carry pink or brown nuance. In this character-grade offering, those natural tonal shifts remain part of the floor's visual appeal.

Its diffuse-porous structure and fine, uniform texture create a cleaner, tailored surface, while the Drift prefinish gives the board a calm, contemporary direction with low-sheen durability.

Distinctive Attributes

This character-grade floor welcomes natural variation in heartwood and sapwood, along with sound knots, open character, worm holes, checks, and streaking. Open knots and open character up to 1/2 in. are fillable, and heartwood/sapwood variation is intentionally unrestricted.

Flooring Specifications

Prefinish	Drift
Sold	In full carton
Shipping Weight	3.75 lbs per sq. ft.
Edge	4-sided micro-beveled edge
Installation	Nail/staple down, glue assist, glue down (engineered only)
