Technical Profile

Photosensitivity

Low; lightens with age and sun exposure.

Grain

Straight, open, medium to coarse.

Janka Hardness

1290 lbf average.

Specific Gravity

0.63 average at 12% MC.

In-Use Stability

Average.

Finish Notes

Sands well with standard grit progression and accepts stains and finishes very nicely.

American Collection · Luxury Wide Plank Collection

Red Oak

UNFINISHED

Red Oak Character offers the familiar warmth of American red oak in a more expressive, naturally varied grade. Heartwood ranges from light biscuit to medium brown with a subtle red-to-pink cast, while lighter sapwood may appear throughout for added contrast.

Its ring-porous structure and open, medium-to-coarse grain create a surface with movement and texture, making it a strong fit for interiors that want a classic hardwood feel with more visual personality.

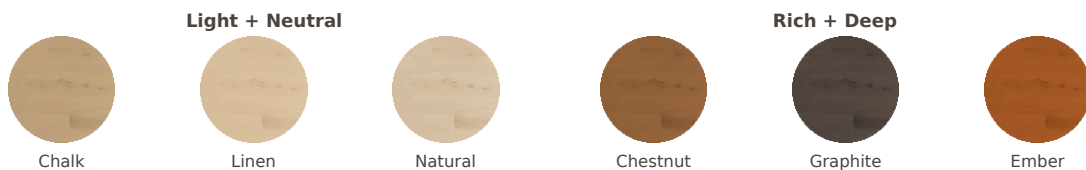

Distinctive Attributes

This character-grade floor welcomes prominent variation in heartwood and sapwood, along with sound knots, open character, worm holes, checks, and streaking. Open knots and open character up to 1/2 in. are fillable, and heartwood/sapwood variation is intentionally unrestricted for a naturally organic look.

Flooring Specifications	
Sold	In full bundles
Shipping Weight	3.66 lbs per sq. ft.
Edge	Square edge, beveled edge (micro bevel or V-groove)
Installation	Nail/staple down, glue assist, glue down (engineered only)
