## Technical Profile

### Photosensitivity

High; darkens to a deep reddish-brown with age and sun exposure.

### Grain

Normally straight with a fine, uniform, satiny texture; curly or wavy figure may appear.

### Janka Hardness

950 lbf average.

### Specific Gravity

0.50 average at 12% MC.

### In-Use Stability

Average.

### Finish Notes

Sands easily and accepts stains and finishes well, though softer cherry may show sander marks more readily.

American Collection · Luxury Wide Plank Collection

## Cherry

### UNFINISHED

Cherry Character offers the refined warmth of American cherry in a naturally expressive grade. Heartwood ranges from light pinkish red to reddish brown, while lighter sapwood may appear in pale yellow to light brown tones. Dark streaks are common, and boards can vary noticeably in both grain and color.

Its generally straight grain, fine uniform texture, and satiny surface give the floor a tailored look, while gum pockets and occasional curly or wavy figure add movement and depth. The result is a classic American hardwood with rich character and a graceful aging profile.

### Distinctive Attributes

This character-grade floor highlights natural variation in heartwood and limited sapwood, along with sound knots, open character, worm holes, checks, streaks, and gum pockets. Open knots and open character up to 1/2 in. are fillable, giving the floor an intentionally organic and visually layered appearance.

Flooring Specifications	
<b>Sold</b>	In full bundles
<b>Shipping Weight</b>	2.91 lbs per sq. ft.
<b>Edge</b>	Square edge, beveled edge (micro bevel or V-groove)
<b>Installation</b>	Nail/staple down, glue assist, glue down (engineered only)
