Technical Profile

Photosensitivity

Low; slightly ambers with age and exposure to sunlight and oxygen.

Grain

Generally straight with a fine, even texture.

Janka Hardness

1450 lbf average.

Specific Gravity

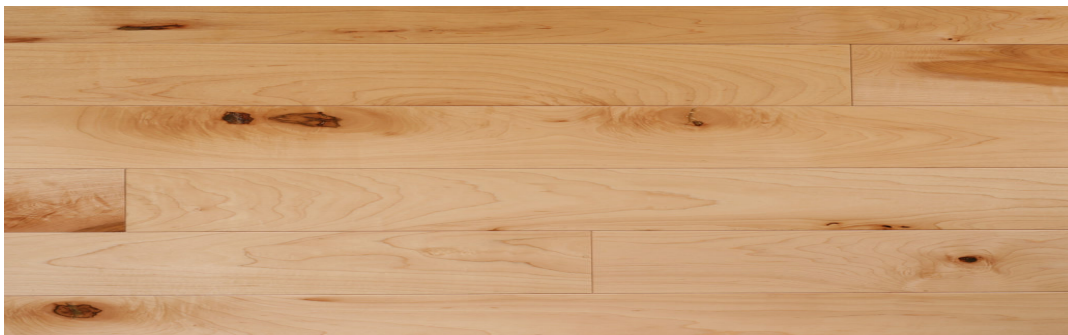

0.63 average at 12% MC.

In-Use Stability

Average.

Finish Notes

Dense and light in color, maple benefits from careful grit progression and may require higher final grits to minimize visible sanding marks.

American Collection · Luxury Wide Plank Collection

Maple

PREFINISHED NATURAL

Maple brings a refined, straight-grained appearance with heartwood ranging from darker reddish-brown to brown and sapwood running from nearly white to soft cream. The Natural prefinish keeps that variation quiet and clean, letting the species read bright and tailored.

Its diffuse-porous structure and fine, even texture create a smoother visual rhythm than more open-pored species, making it a strong fit for interiors that want calm movement with visible natural character.

Distinctive Attributes

This character-grade floor welcomes natural heartwood and sapwood variation along with sound knots, open character, worm holes, checks, and streaking. Open knots and open character up to 1/2 in. are fillable, and heartwood/sapwood variation is intentionally unrestricted.

Flooring Specifications

Prefinish	Natural
Sold	In full carton
Shipping Weight	3.66 lbs per sq. ft.
Edge	4-sided micro-beveled edge
Installation	Nail/staple down
